Lands Energy Announces the Addition of Steve Fisher

Seattle, WA – November 28, 2007 - Lands Energy Consulting, Inc. is pleased to announce the addition of Steve Fisher as an owner and principal consultant, effective January 1, 2008. Mr. Fisher has worked in the Northwest energy industry for the past 27 years, most recently serving as the Principal Consultant for Fisher Northwest Consulting, LLC, where he provided a number of specialized services, including electric reliability compliance, resource acquisition, project interconnection, project evaluation, risk management, transmission policy, and system operator training consulting support. His clients include utilities, project developers, and equipment manufacturing firms. Mr. Fisher will continue to support his current clients throughout the month of December prior to coming onboard at Lands Energy.

Prior to founding Fisher Northwest Consulting, he held the position of Power Manager for Chelan County PUD, where he was responsible for management of the District's energy trading, scheduling, power planning, power contracting, system operations, and control systems engineering functions. He has also held positions for Mirant, TransAlta, Avista Energy, Avista Power, Avista Utilities (formerly Washington Water Power), and Power Resource Managers. His past responsibilities have also included wholesale marketing, power planning, transmission contracting, system operations, power plant development, and substation design.

Mr. Fisher received his Bachelor of Science in Electrical Engineering from the University of Idaho. He will provide service to clients from his home office in Wenatchee, WA, where he lives with his wife, Karen, and four school age children.

"I am excited to be able to work with other energy industry professionals at a dynamic consulting company such as Lands Energy", said Fisher. "I look forward to expanding the consulting services available to my existing clients, while enhancing the capabilities of Lands Energy to better serve new and existing clientele."

Steve Lewis, President of Lands Energy, added, "Steve Fisher brings a strong background in the energy industry that will complement our current team and expand the high quality of service we provide to our clients. We look forward to his arrival at the start of the year."

With offices in Seattle, Vancouver, WA, and now Wenatchee, Lands Energy Consulting is a Northwest-based energy consulting firm providing advisory consulting services to clients throughout the WECC and the nation. Our consultants specialize in energy management, particularly energy commodity risk management and trading, hedging of physical assets, utility operations, and hydro-electric expertise. More information about Lands Energy can be found at www.landsenergy.com.
